

Artificial Intelligence

Project Presentation Report

Group Name: Artificial Masters

Names of team members and what did each one contribute toward putting together the presentation such as slides, etc.?

Taylor Nastally - I wrote the slides for Random and State Space Search, which were the AI elements I programmed.

Manpreet Dhindsa - Created the initial presentation, agenda/outline, introduction to Connect4, and added blocking AI slides.

Ashot Alajanyan- Contributed some information about the State space search slides, added some touches and extra information to help the audience understand the topic.

Jake Anderson - Created the code snippets for the Alpha-Beta Pruning AI, added the slides for the AI and its interactions and also the motivations slide.

You would be submitting your presentation slides or prezilinks etc. not here but along with the final submission.
